Attachments: DE Progress - Turning the Tide in the Delaware - Reducing a Legacy Pollutant - 20150409.docx; WV Progress - Rebirth of the Cheat River - 20160609.docx; PA Progress - Long Time Acid Mine Drainage Halted - 20150903.docx; PA Progress - Removing Legacy Sediments Making Difference in Stream - 20150910.docx

Here you go, Jon. I also included the story on legacy sediments for your consideration. Let me know if I can help further. Lot of good ones, including the return of brook trout to Aaron Run and the WV septic stories. Thanks.
Tom

Tough to choose. Many fit the bill. The two "Turning the Tide in the Delaware" stories should be included. Discuss Monday?

Jon, be great if you can get these examples to us soon, particularly examples of wq improvement successes short of standards.

Hi Jon, thank you for working with Mary Jo to get a all set up.

I think it would be great if you could send us several of the R3 success stories that show the kind of write-up and substantive progress we'd like folks to support putting into the strategic measures system. We can introduce this approach to some of our key measures folks, perhaps

have a call with you if they have questions/issues they'd like to discuss. With that understanding of the lay of the land ahead of us in a measures context, we might have Mary Jo then send the example success stories out with the other materials for the WDD call? - TomW

Thanks Mary Jo – last week of September would be a good target time. Best dates for me are Sept 28-29. WEFTEC is early part of this week and lots of OW folks attend.

Shera Reems and Tom Wall would be the HQs contacts or sponsors for the call. There is a draft concept paper on changes to the clean water outcome measures that could be reviewed on the call. I can chime in on a Regional perspective.

The main purpose of the call is to bring WDD's up to speed on themes and directions for change as outcome measures for waterbody restoration and protection are scheduled to be updated for the Agency Strategic Plan (2017-2021)

Thanks.

Mary Jo – who should I work with on a suggested Hot Issue call for late September on the topic of Enhancing the Core Performance Measures for Clean Water in the Agency Strategic Plan.

Tom Wall OWOW and I would be participants in organizing this.

Do you want us to start working with Region 5
on this?

Hope all is well.

Jon
